

VPC → Virtual Private Cloud

ISP → Internet Service Provider
↳ Reliance
↳ Airtel

cloud watch — Services — Cloud trail

monitor Resources (EC-2)
& application → web application

CCTV
user activity
tracking

- log store
- log search (query)
- dashboards

user data :- commands/ → unix / commands
execute as root user ⇒ (admin)
→ command → shell script / ps script

→ feedback commands. ~~xxx~~

store → var/lib/cloud/instances

Lambda :-

```
void sum()
{
    //
}
```

```
int main()
{
    sum();
}
```

⚡

```
class demo
{
public:
    int a;
    sum()
    {}
}

int main()
{
    demo d;
    d.a;
    d.sum()
}
```

⚡

cloud watch :-

/aws/ <service name> / logs / <name>

Lambda :-

① event driven automation

② lambda as API → Request
↳ web services
↳ Respon.
